When your clean has a set time

For fixed-time bookings, including NDIS and DVA cleans, we prioritise the kitchen, bathrooms, laundry and floors unless your booking notes or agreed instructions say otherwise. Floors are included in the plan for every visit. Bedrooms, theatre rooms or other surface cleaning may be reduced to keep within the time booked.

The checklist describes the standard routine scope. Tasks completed depend on your booking, priorities and time available. We can rotate deeper attention across visits or discuss additional time.

Before we arrive

Clear benches and floors where possible, put away valuables and personal items and make sure we have the agreed access to your home. Let us know about pets, delicate finishes or surfaces that need a particular product or method.
